

Curriculum Vitæ

Education and Research Experience

University of Illinois Chicago

Assistant Professor 2023 -
UIC High Energy Nuclear Physics Group (CMS, ePIC Collaborations)

Rice University

Research Scientist 2023
Rice Academy Postdoctoral Fellow — Advisor: Prof. Wei Li 2019-2023
Rice Relativistic Heavy Ion Group (CMS, H1 Collaborations)

Massachusetts Institute of Technology

Ph.D. in Physics 2013-2019
Research Assistant — Advisor: Prof. Gunther Roland
MIT Relativistic Heavy Ion Group (CMS Collaboration)

Texas A&M University

B.S. in Physics and Mathematics, Summa Cum Laude, University Honors 2009-2013
Research Assistant — Advisor: Prof. Peter McIntyre 2012-2013
Texas A&M Accelerator Research Lab

Research Highlights

- Analyzer for precision experimental extraction of the speed of sound in the quark-gluon-plasma, using a novel method of examining head-on ultracentral heavy ion collisions.
- Analyzer for measurement observing QGP-like effects in single jets from pp collisions. Observes deviations from models which suggest new connections between nuclear and high-energy physics. Published as a PRL Editors' Suggestion.
- Main analyzer of a precision Z boson measurement in PbPb collisions, published in PRL. Proposes a method to remove modeling uncertainties and biases in LHC measurements.
- Main analyzer of the CMS Collaboration's 2015 charged particle nuclear modification factor paper. It has been cited over 400 times and had a figure featured in the CERN Courier.
- Author on a paper searching for collectivity in e^+e^- collisions using archived 30-year-old data from LEP. Provides a strong argument for open-data and data archival initiatives.
- Award-winning contributions to the CMS tracking detector, including leadership of the heavy ion tracking group for 7 years and a nearly 10x increase in heavy ion DAQ rate compared to 2012.

———— Awards and Honors

Breakthrough Prize in Fundamental Physics (as part of CMS)	2025
Texas A&M 12 Under 12 spotlight	2024
<i>Awarded to 12 alumni who have graduated less than 12 years ago. Given for going “...above and beyond the call of duty for students who need advocates...”</i>	
Global Young Scientist Summit (GYSS) attendee	2022
CMS Collaboration Award	2020
<i>Given “for his development work on the heavy ion track reconstruction and research activity aiming to evolve the tracker data storage scheme.”</i>	
Best talk award at 2019 USA LHC Users’ Association meeting	2019
Rice University Academy Postdoctoral Fellowship	2019
MIT School of Science Fellowship	2013-2016
Texas A&M Best Undergraduate STEM thesis	2013

Leadership Positions

LPCC Heavy Ion Working Group Convener 2023 -

This working group provides a forum for the Heavy Ion community to discuss priority topics. As a convener I organize public forums and topics of discussion.

ePIC Collaboration Council representative for UIC 2023 -

I represent UIC's interests in high-level meetings used to dictate the organization and operation of the Collaboration.

CMS Publication Committee member 2025

Responsible for reviewing and fine-tuning the messages and presentation of final heavy ion papers before they are sent to a journal for peer-review.

CMS Oxygen Collisions Working Group Convener 2025

Responsibilities include arranging meetings and arranging priorities for new Oxygen collision data collection. Coordinated multiple fast-track physics analyses after the data was taken.

CMS Heavy Ion Heavy Flavor and Spectra group leader 2022 -

Responsibilities include arranging meetings and providing analysis advice, reviewing new analyses to maintain quality, and arranging priorities for new data collection.

Project Manager - CMS MTD ETL Nuclear Physics Consortium 2023

I coordinated a group of 5 institutions (KU, MIT, ORNL, Rice, UIC) during the construction of this \$18.4M timing detector that will be installed in CMS. I am responsible for the project being executed on-time and on-budget.

CMS Raw' Data Format Task Force Leader 2020 - 2023

The group investigated new data formats to optimize event throughput. Leadership involved managing different skill sets, and communication to ensure proper integration. Ultimately resulted in a 35% increase in number of events gathered for the LHC Run 3.

CMS Heavy Ion Tracking Contact 2016 - 2022

I coordinated 5-10 people working on tracking software. Responsibilities include mentoring students, organization, troubleshooting, and facilitating collaboration with other groups.

Others Skills and Certifications

Certified Associate in Project Management (CAPM) 2023

A globally recognized credential from the Project Management Institute indicating training in professional project management. Skills tested include project leadership, ability to control the cost, schedule, and scope of large projects, and the ability to manage various stakeholder interests.

CMS Certified Language Editor 2018 -

Indicates strong technical writing skills, and proficiency with L^AT_EX. I edit articles for the collaboration before they are submitted to a journal.

Scientific service work

Reviewer for DoE Graduate Student Research (SCGSR) Program 2024 -

Reviewer for Physical Review C, Physical Review Letters 2022 -

Advocate for Congressional funding of physics 2020, 2021, 2025 -

I have been a member of the contingent for the US LHC Users' Association and Nuclear Physics Day that advocates for NSF and DoE funding. I set up meetings with members of Congress to update them about our scientific mission and remind them of the importance of their continued support.

Conference Session Chair

'4th Workshop on QCD Collectivity at the Smallest Scales' Qingdao, China. 2024

'Opportunities of OO and pO collisions at the LHC' workshop at CERN. 2021

UIC Service Work

Doctoral Thesis Defense Committee Member

I have served on the following students' committees:

Jieun Yoo - 3/17/2025

Doctoral Preliminary Exam Committee Member

I have served on the following students' committees:

Alex Thielan - 5/7/2025

Jeetendra Gupta - 5/7/2025

Aaron Wang - 5/7/2025

Enea Prifti - 5/7/2025

Jongho Lee - 5/6/2025

Danush Shekar - 5/6/2025

Navjit Singh - 5/5/2025

Harshul Gupta - 5/5/2025

Zheng Huang - 5/5/2025

Nicholas Barnett - 5/5/2025

Abhishek Hingrajiya - 2/6/2025

Shirsendu Nanda - 5/9/2024

Ricardo Escobar - 3/29/2024

Gavin Wilks - 12/19/2023

Clayton Bennett - 12/4/2023

Ziyue Zhang - 9/22/2023

UIC Physics Department Undergraduate Mentoring Committee: Aug. 2024 -

UIC Honors College Faculty Fellow: Aug. 2024 -

Physics Department Commencement Marshall: 5/5/2024

UIC Undergraduate Research Forum Judge: 4/15/2024, 4/21/2025

UIC Honors College Fall Research Symposium Judge: 11/20/2024

LAS Faculty Meeting Quorum member: Aug. 2023 -

Teaching

Classes taught at UIC

PHYS 141 (Calculus-based introductory mechanics)
Spring 2024, Spring 2025
PHYS 481 (Upper-level experimental laboratory class)
Fall 2024

Mentoring

Postdoctoral advisor

Sruthy Das: 2025 -
Prottoy Das: 2024 -

PhD advisor

Jeetendra Gupta: 2024 -
Vipul Pant: 2024 -
Zheng Huang: 2023 -
Shirsendu Nanda: 2023 -
Nicholas Barnett: 2023 -

Undergraduate research advisor

Raven Lee: Summer intern with CMS SPRINT/PURSUE program 2024
Kyle Sabo: UIC Honors student - graduated with Honors capstone project 2024 - 2025

Mentoring as a postdoc

Parker Gardner: Rice graduate student 2020 - 2023

Mentoring as a graduate student

Anthony Badea: MIT undergraduate student 2018 - 2019

Publications

As a member of the CMS Collaboration, I am a listed author on over 1000 publications. A full list can be found at [inspireHEP](#). Items here are ones I made notable contributions to. Being primary author indicates I was one of the main analyzers on the analysis, while secondary author indicates I provided support in the form of corrections, cross-checks, software, etc.. Paper editing contributions usually involved significant editing/rewrites of the paper.

As a primary author

- April 2025 The CMS Collaboration. *Overview of high-density QCD studies with the CMS experiment at the LHC*. [Phys. Rept. 1115 \(2025\) 219](#).
- March 2025 The CMS Collaboration. *Observation of the charged-particle multiplicity dependence of $\sigma_{\Psi(2S)}/\sigma_{J/\Psi}$ in pPb collisions at 8.16 TeV*. [Submitted to PRL](#).
- Feb. 2025 The CMS Collaboration. *Pseudorapidity distributions of charged hadrons in PbPb collisions at $\sqrt{s_{NN}} = 5.36$ TeV*. [Phys. Lett. B 861 \(2025\) 139279](#).
- Feb. 2025 The CMS Collaboration. *First k_T scan of the Lund jet plane in heavy-ion collisions to test the factorization of the vacuum and medium parton shower*. [CMS PAS HIN-24-016](#).
- Nov. 2024 The CMS Collaboration. *Constraining nPDFs using dijet production in pPb collisions at 8.16 TeV with the CMS experiment*. [CMS PAS HIN-24-014](#).
- Sept. 2024 The CMS Collaboration. *Observation of enhanced long-range elliptic anisotropies inside high-multiplicity jets in pp collisions at $\sqrt{s} = 13$ TeV*. [PRL 133 \(2024\) 142301](#) (editors' suggestion).
- June 2024 The CMS Collaboration. *Extracting the speed of sound in quark-gluon plasma created in ultrarelativistic lead-lead collisions at the LHC*. [Rep. Prog. Phys. 87 \(2024\) 077801](#).
- July 2023 Baty, A., Gardner, P., and Li, W. *Novel observables for exploring QCD collective evolution and quantum entanglement within individual jets*. [Phys. Rev. C 107, 064908](#).
- Aug. 2021 The CMS Collaboration. *Constraints on the Initial State of Pb-Pb Collisions via Measurements of Z-Boson Yields and Azimuthal Anisotropy at $\sqrt{s_{NN}} = 5.02$ TeV*. [PRL 127 \(2021\) 102002](#).
- Dec. 2020 The H1 Collaboration. *Search for collectivity in e-p collisions with H1*. [Conference Note](#).
- Nov. 2019 Badea, A., et al. *Measurements of two-particle correlations in e^+e^- collisions at 91 GeV with ALEPH archived data*. [PRL 123 \(2019\) 212002](#).
- June 2019 Baty, A. *Study of Parton Energy Loss in Heavy Ion Collisions using Charged Particle Spectra Measured with CMS*. [Doctoral thesis](#).
- Aug. 2018 The CMS Collaboration. *Charged-particle nuclear modification factors in XeXe collisions at $\sqrt{s_{NN}} = 5.44$ TeV*. [JHEP 10 \(2018\) 138](#).
- April 2017 The CMS Collaboration. *Charged-particle nuclear modification factors in PbPb and pPb collisions at $\sqrt{s_{NN}} = 5.02$ TeV*. [JHEP 1704 \(2017\) 039](#).
- Jan. 2016 The CMS Collaboration. *Measurement of transverse momentum relative to dijet systems in PbPb and pp collisions at $\sqrt{s_{NN}} = 2.76$ TeV*. [JHEP 01 \(2016\) 006](#).

- June 2015 The CMS Collaboration. *Jet Fragmentation Function in pPb Collisions at $\sqrt{s_{NN}} = 5.02$ TeV and pp Collisions at $\sqrt{s} = 2.76$ and 7 TeV.* [CMS PAS HIN-15-004](#).
- Sept. 2013 Sooby E. et al. *Candidate molten salt investigation for an accelerator driven subcritical core.* [Journal of Nuclear Materials \(2013\) 440\(1\), 298–303.](#)
- June 2013 Baty, A. *Molecular Dynamics Simulation of the Transport Properties of Molten Transuranic Chloride Salts.* [Undergraduate research thesis.](#)

As a secondary author

- April 2025 The CMS Collaboration. *Search for jet quenching with dijets from high-multiplicity pPb collisions at $\sqrt{s_{NN}} = 8.16$ TeV.* [Submitted to JHEP.](#)
- Sept. 2024 Chen, Y.-C., et al. *Long-range near-side correlation in e^+e^- collisions at 183–209 GeV with ALEPH archived data.* [PLB 856 \(2024\) 138957.](#)
- March 2023 Arslanok M., et al. *Hot QCD White Paper.* [arXiv:2303.17254.](#)
- March 2023 Achenbach P., et al. *The Present and Future of QCD.* [As submitted to the 2023 NSAC Long Range Planning committee.](#)
- June 2022 Chen, Y., et al. *Jet energy spectrum and substructure in e^+e^- collisions at 91.2 GeV with ALEPH Archived Data.* [JHEP 06 \(2022\) 008.](#)
- June 2021 The CMS Collaboration. *First measurement of large area jet transverse momentum spectra in heavy-ion collisions.* [JHEP 05 \(2021\) 284.](#)
- May 2021 The CMS Collaboration. *Measurement of b jet shapes in proton-proton collisions at $\sqrt{s}=5.02$ TeV.* [JHEP 05 \(2021\) 054.](#)
- April 2019 The CMS Collaboration. *Jet shapes of isolated photon-tagged jets in PbPb and pp collisions at $\sqrt{s_{NN}}=5.02$ TeV.* [PRL 122 \(2019\) 152001.](#)
- Dec. 2018 The CMS Collaboration. *Observation of medium-induced modifications of jet fragmentation in Pb-Pb collisions at $\sqrt{s_{NN}}=5.02$ TeV using isolated photon-tagged jets.* [PRL 121 \(2018\) 242301.](#)
- April 2018 The CMS Collaboration. *Pseudorapidity distributions of charged hadrons in proton-lead collisions at $\sqrt{s_{NN}}=5.02$ and 8.16 TeV.* [JHEP 01 \(2018\) 045.](#)
- March 2016 The CMS Collaboration. *Correlations between jets and charged particles in PbPb and pp collisions at $\sqrt{s_{NN}} = 2.76$ TeV.* [JHEP 02 \(2016\) 156](#)

As the collaboration's paper editor

- May 2025 The CMS Collaboration. *Search for medium-induced jet axis decorrelations with inclusive jets from PbPb collisions at $\sqrt{s_{NN}} = 5.02$ TeV.* [Accepted by JHEP.](#)
- March 2025 The CMS Collaboration. *Small-x evolution of gluon fields from incoherent J/Ψ photoproduction in ultraperipheral PbPb collisions.* [Submitted to PRL.](#)
- Oct. 2024 The CMS Collaboration. *Correlations between azimuthal anisotropy and mean transverse momentum in pp, pPb, and peripheral PbPb collisions.* [Submitted to PRL.](#)
- July 2024 The CMS Collaboration. *Multiplicity dependence of charm baryon and baryon meson production in pPb collisions at $\sqrt{s_{NN}} = 8.16$ TeV.* [Submitted to PLB.](#)

- Dec. 2023 The CMS Collaboration. *Probing small Bjorken- x nuclear gluonic structure via coherent J/Ψ photoproduction in ultraperipheral PbPb collisions at $\sqrt{s_{NN}} = 5.02$ TeV.* [PRL 131, \(2023\) 262301](#).
- Oct. 2023 The CMS Collaboration. *Measurements of the azimuthal anisotropy of charmonia in PbPb collisions at $\sqrt{s_{NN}} = 5.02$ TeV.* [JHEP 10 \(2023\) 115](#).
- July 2022 The CMS Collaboration. *Probing charm quark dynamics via multiparticle azimuthal correlations in 5.02 TeV PbPb collisions.* [PRL 129, \(2022\) 022001](#).
- Sept. 2021 The CMS Collaboration. *Observation of forward neutron multiplicity dependence of dimuon acoplanarity in ultraperipheral PbPb collisions at $\sqrt{s_{NN}} = 5.02$ TeV.* [PRL 127, \(2021\) 122001](#).
- July 2020 The CMS Collaboration. *Measurement of quark- and gluon-like jet fractions using jet charge in PbPb and pp collisions at 5.02 TeV.* [JHEP 07 \(2020\) 115](#).

Outreach and Public Relations Articles

- Feb. 2024 The CMS Collaboration. *Hearing the sound of quark-gluon plasma.* [CERN homepage News Release, February 16, 2024](#).
- Jan. 2024 The CMS Collaboration. *A Big Bang from a Quantum Quark?* [CMS News Release, January 22, 2024](#).
- Jan. 2024 The CMS Collaboration. *QGP production studied at record energies.* [CERN Courier Jan/Feb Issue, \(2024\) p16](#).

Seminars and Colloquia

- Feb. 2025 *Studying emergence with the strong force.* Feb. 5, 2025. UIC Faculty Colloquium, Chicago, Illinois.
- Jan. 2025 *Exploring the complexity of trillion degree matter.* Jan. 28, 2025. Department of Physics and Astrophysics Colloquium, DePaul University, Chicago, Illinois.
- Dec. 2024 *Quarkonia suppression in small systems at the LHC and prospects for hadronization studies at the EIC.* December 2, 2024. Nuclear Physics Seminar, University of Illinois Urbana-Champaign, Urbana, Illinois.
- Nov. 2024 *Emergence in QCD matter and the future of QCD studies at the EIC.* November 4, 2024. Experimental Particle and Astro-Particle Physics Seminar, University of Zurich, Switzerland.
- July 2024 *High-energy nuclear physics and heavy ion collisions with CMS.* July 3, 2024. CMS PURSUE/SPRINT Program Seminar, Fermilab, Chicago, IL.
- May 2024 *Speed of sound in quark-gluon plasma.* May 16, 2024. Collider cross talk seminar, CERN Department of Theoretical Physics, Geneva, Switzerland.
- May 2024 *Emergence in trillion-degree matter and other high-density systems.* May 6, 2024. Enrico Fermi Institute Colloquium, University of Chicago, Chicago, Illinois.
- April 2024 *UIC at the LHC and EIC: The Present and Future of Nuclear Physics.* April 10, 2024. UIC Faculty Colloquium, Chicago, Illinois.
- July 2023 *Observation of enhanced long-range elliptic anisotropies inside high-multiplicity jets in pp collisions at the LHC.* July 18, 2023. LHC Seminar, LHC Physics Center at CERN (LPCC), Geneva, Switzerland.
- April 2023 *Jets and trillion-degree matter: studying the emergence of QCD phenomena.* April 5, 2023. University of Illinois Chicago Physics Colloquium, Chicago, Illinois.
- Jan. 2023 *Jets and trillion-degree matter: studying QCD at multiple scales.* Jan. 26, 2023. Yale University Nuclear, Particle, and Astrophysics seminar, New Haven, Connecticut.
- Feb. 2022 *Trillion Degree Matter: Probing the emergence of the quark-gluon plasma.* Feb. 3, 2022. Vanderbilt University Department of Physics and Astronomy Colloquium, Nashville, Tennessee.
- Feb. 2022 *Trillion Degree Matter: Probing the emergence of the quark-gluon plasma.* Feb. 1, 2022. Rice University Nuclear and Particle Physics Seminar, Houston, Texas.
- Oct. 2019 *Searching for collectivity in small systems using e^+e^- data from ALEPH,* October 1, 2019. LBL Heavy Ion Tea Seminar, Berkeley National Lab, Berkeley, California.
- Feb. 2019 *Exploring charged particle production in the quark-gluon plasma: from e^+e^- to PbPb,* Feb. 7, 2019. CU Boulder, Boulder, Colorado.

Conference Presentations

Talks at larger conferences and high profile talks are indicated by bold font.

- May 2025 *QCD collectivity in high-multiplicity jets from pp collisions.* May 21, 2025. 2025 Workshop RHIC/AGS Annual Users' Meeting, Brookhaven National Lab, New York.
- April 2025 *New constraints on nPDFs using dijets in pPb collisions at 8.16 TeV with CMS.* April 8, 2025. Quark Matter 2025, Frankfurt, Germany.
- April 2025 *Recent highly-differential measurements examining jet quenching.* April 3, 2025. High Energy Probes of the Initial Stages, CERN Theory Institute, Geneva, Switzerland.
- Sept. 2024 *Observation of the multiplicity dependence of $\sigma_{\psi(2S)}/\sigma_{J/\psi}$ in pPb collisions and implications for comover effects.* September 25, 2024. Hard Probes 2024, Nagasaki, Japan.
- Aug. 2024 *Final state interactions in heavy ion collisions with CMS and at the EIC.* August 21, 2024. Heavy Ion Physics in the EIC Era Workshop, Institute for Nuclear Theory, Seattle, Wa..
- June 2024 *Collectivity in jets: Experiment.* June 25, 2024. 4th International Workshop on QCD Collectivity at the Smallest Scales, Qingdao, China.
- June 2024 *Measurement of the multiplicity dependence of charm hadron production in pPb collisions with CMS.* June 4, 2024. 21st International Conference on Strangeness in Quark Matter, Strasbourg, France.
- June 2024 *Long range correlations in high-multiplicity e^+e^- collisions using archived ALEPH data at 91-209 GeV.* June 4, 2024. 21st International Conference on Strangeness in Quark Matter, Strasbourg, France.
- Nov. 2023 *Extracting the speed of sound in the strongly interacting matter in ultrarelativistic nuclear collisions.* Nov. 21, 2023. 14th International Workshop on Multiple Parton Interactions at the LHC, Manchester, UK.
- Sept. 2023 *Overview of Recent CMS Results.* Sept. 4, 2023. Quark Matter 2023, Houston, Texas.
- June 2023 *Status of DOE-NP ETL Project.* June 1, 2023. US CMS Annual Collaboration Meeting, Carnegie Mellon University, Pittsburgh, Pennsylvania.
- Mar. 2023 *Overview of Recent Experimental Electroweak Probes Results.* March 27, 2023. Hard Probes 2023, Aschaffenburg, Germany.
- Oct. 2022 *Constraints on the initial state of heavy ion collisions at the LHC using electroweak bosons.* Oct. 14, 2022. Fall Meeting of the Texas Section of the APS, Houston, Texas.
- June 2022 *Overview of recent heavy ion results.* June. 29, 2022. CMS Week, CERN, Switzerland.
- April 2022 *Electroweak probes as tools for understanding initial state effects in heavy ions with CMS.* April. 7, 2022. Quark Matter 2022, Krakow, Poland.
- Aug. 2021 *Measurement of charged particle multiplicity distributions in DIS at HERA and its implication to entanglement entropy of partons.* Aug. 5, 2021. 14th Quark Confinement and the Hadron Spectrum Conference.
- Jan. 2021 *Measurement of initial stages via color neutral probes in pPb and PbPb.* Jan. 14, 2021. Initial Stages 2021.

- Oct. 2020 *New constraints of initial states in PbPb collisions with Z boson yields and azimuthal anisotropy at 5.02 TeV.* Oct. 29, 2020. APS Division of Nuclear Physics fall meeting (DNP 2020).
Parallel
- Oct. 2020 *Future opportunities for exploring collectivity using extra small systems.* Oct. 28, 2020. Snowmass EF07 meeting: High Density QCD in Small Collision Systems
Parallel
- June 2020 *Probing initial and final state effects with Z bosons in PbPb and Drell-Yan in pPb with the CMS detector,* June 3rd, 2020. Hard Probes 2020.
Parallel
- Nov. 2019 *Electroweak Boson production in Heavy-Ion Collisions from CMS,* November 11th, 2019. A Workshop on Heavy Flavor and Dilepton Production in Relativistic Heavy-Ion Collisions (HeFe2019), University of Science and Technology of China, Hefei, China.
Workshop
- Nov. 2019 *Collectivity of Heavy Flavor Hadrons in pp and pPb Collisions with the CMS Detector,* November 5th, 2019. Quark Matter 2019, Wuhan, China.
Parallel
- Oct. 2019 *Using charged particles to study jet quenching in heavy ion collisions with CMS,* October 17, 2019. US LHC Users Association Annual Meeting 2019, Rice University, Houston, Texas.
Parallel
- June 2019 *Searches for the ridge in DIS and e^+e^- ,* June. 27, 2019. Initial Stages 2019, Columbia University, New York City, New York.
Plenary
- June 2019 *Studies of archived e^+e^- and HERA data,* June. 4, 2019. 2019 RHIC & AGS Annual Users' Meeting, Brookhaven National Lab, Brookhaven, New York.
Parallel
- Dec. 2018 *Measurements of two-particle correlations in e^+e^- collisions at 91 GeV with ALEPH archived data,* Dec. 11, 2018. 10th International Workshop on Multiple Parton Interactions at the LHC, Perugia, Italy.
Workshop
- Oct. 2018 *Charged Particle Nuclear Modification Factors in pPb, PbPb, and XeXe Collisions with CMS,* Oct. 2, 2018. Hard Probes 2018, Aix-Les-Bains, France.
Parallel
- May 2018 *Charged Particle Nuclear Modification Factors in pPb, PbPb, and XeXe Collisions with CMS,* May 15, 2018. Quark Matter 2018, Venice, Italy.
Parallel
- Sept. 2017 *Boson+Jet Correlations and Boson-Tagged Jet Substructure in pp and PbPb collisions at 5.02 TeV with CMS,* Sept 20, 2017. Initial Stages 2017, Krakow, Poland
